PLEASE NOTE	As a Semi-Aniline leather, this product has a very fine pigment applied to its surface that increases the leather's resistance to colour change that is caused by exposure to light. This protection also enhances the leather's wearing qualities, without losing its soft handle. Results from performance tests are guidelines only

CARE

- Leather Care for Finished Leathers is available from our website

ENVIRONMENT

- Leather is an agricultural by-product
- Water and energy reuse + recycling, renewable energy use (30%), non-potable water use (100%), no hazardous substances are used
- Certified as low-VOC
- Reusable

GREEN STAR

- GELATO can contribute low VOC points
- GELATO can be used on white furniture certified to Ecospecifier, AFRDI, ECNZ and GECA
- The Green Star Rating Tool states "Where at least 90% of an item's mass is certified to a GBCA recognised standard, the item can be entered as a certified product at Level A, B or C." Therefore any leather can be used as leathers are almost always under 10% by weight of a furniture item

LEED

- GELATO can contribute low VOC points

WELL

- GELATO can contribute to Low VOC / VOC Reduction
- Toxic Material Reduction: GELATO is free of PFCs, flame retardants, phthalates and urea formaldehyde

SEATING COMFORT RATING

A rating to determine a leather's seating comfort based upon the leather's ability to breathe and absorb moisture. Tested to ASTM E 96 M-05. GELATO achieves an Excellent Seating Comfort rating.
