

The image shows four rolls of fabric stacked on top of each other, receding into the distance. The top roll is white, the second is light green, the third is beige, and the bottom roll is dark grey. The fabric has a visible woven texture. The lighting is soft and even, highlighting the texture of the material.

ORIGIN	Made in Australia	
PLEASE NOTE	Results from performance tests are guidelines only	

ENVIRONMENT

- 100% third-party certified polyester yarn: meets human ecological requirements according to Oeko-Tex Standard 100 Class I.
- Reduced water + energy use, reuse + recycling of waste

GREEN STAR

ICE can be used on white furniture certified to Ecospecifier, AFRDI, ECNZ and GECA

The Green Star Rating Tool states “Where at least 90% of an item’s mass is certified to a GBCA recognised standard, the item can be entered as a certified product at Level A, B or C.” Therefore any fabric can be used as fabrics are almost always under 10% by weight of a furniture item

WELL

ICE can contribute to the following WELL criteria:

- Toxic Material Reduction: ICE is free of PFCs, flame retardants, phthalates and urea formaldehyde
