Please refer to website for current colour range

The ultimate pure Aniline, Tundra is a soft, elegant, supple leather inspired by nature. Tundra is dyed twice, creating a deep, rich and earthy colour palette and a protective Scotchgard® treatment is permeated into the leather during production to help protect against spillages and soiling.

AVERAGE HIDE SIZE	6 sqm approx.	
THICKNESS	1.2 - 1.4mm	
WEIGHT	1035gsm approx.	
LEATHER TYPE	Pure Aniline	
COLOURFASTNESS TO-AND-FRO RUBBING	Dry ≥ 3 Wet ≥ 3	Perspiration ≥ 3
LIGHTFASTNESS EN ISO 105-B02	≥ 3	
pH AND ΔpH EN ISO 4045	pH 3.8 ΔpH 0.41	
TEAR STRENGTH EN ISO 3377-1	> 20 N	
FIRE RATINGS AS/NZS 1530.3	Ignitability	14
	Spread of Flame	0
	Heat Evolved	2
	Smoke Developed	3
AS/NZS 3837 (AS 5637.1)	BCA Group 1	Av. Specific Extinction Area 20.6m2/kg
ISO 5660.1	NZBC Group 1	Av. Specific Extinction Area 10.9m2/kg
NZBC Method C/VMA app A		
Additional Fire tests	EN 1021-1, EN 1021-2, BS 5852 Crib5	
APPLICATION	Upholstery seating, wall panels	

PLEASE NOTE

- Due to the nature of leathers, colour variations within and between hides are unavoidable.
- Only the very best raw hides are used for Pure-Aniline leathers. The natural characteristics such as insect bites, fat wrinkles, growth marks and healed scars can still be visible, a sign of a superior natural leather with its own individuality. Pure-Aniline leathers do not have any protective coating or pigment on the surface and are therefore more susceptible to fading from sunlight exposure. Care should be taken in high-traffic areas where food and drink spillages could stain the leather.

CARE

- Leather Care for Aniline Leathers is available from our website

ENVIRONMENT

- Leather is an agricultural by-product
- Water and energy reuse + recycling, renewable energy use (30%), non-potable water use (100%), no hazardous substances are used. Finishing is carried out using exclusively water-based conditioning systems
- Produced at a world-leading tannery with an ISO 14001 certified Environmental Management System
- Certified as low-VOC
- Reusable

GREEN STAR

- TUNDRA can contribute low VOC points
- TUNDRA can be used on white furniture certified to Ecospecifier, AFRDI, ECNZ and GECA
- The Green Star Rating Tool states “Where at least 90% of an item’s mass is certified to a GBCA recognised standard, the item can be entered as a certified product at Level A, B or C.” Therefore any leather can be used as leathers are almost always under 10% by weight of a furniture item

LEED

- TUNDRA can contribute low VOC points

WELL

- TUNDRA can contribute to Low VOC / VOC Reduction
- Toxic Material Reduction: TUNDRA is free of PFCs, flame retardants, phthalates and urea formaldehyde

SEATING COMFORT RATING

A rating to determine a leather’s seating comfort based upon the leather’s ability to breathe and absorb moisture. Tested to ASTM E 96 M-05. TUNDRA achieves an Excellent Seating Comfort rating.
