PLEASE NOTE

Pure-Aniline leathers are made from the finest raw hides. The natural characteristics such as insect bites, fat wrinkles, growth marks and healed scars can still be visible, a sign of a superior natural leather with its own individuality. Pure-Aniline leathers do not have any protective coating or pigment on the surface and are therefore more susceptible to fading from sunlight exposure. Care should be taken in high-traffic areas where food and drink spillages could stain the leather.

#### CARE

• Leather Care for Aniline Leathers is available from our website

#### **ENVIRONMENT**

- Leather is an agricultural by-product
- Water and energy reuse + recycling, renewable energy use (30%), non-potable water use (100%), no hazardous substances are used. Finishing is carried out using exclusively water-based conditioning systems
- Certified as low-VOC
- Reusable

#### **GREEN STAR**

- VERONA can contribute low VOC points
- VERONA can be used on white furniture certified to Ecospecifier, AFRDI, ECNZ and GECA
- The Green Star Rating Tool states "Where at least 90% of an item's mass is certified to a GBCA recognised standard, the item can be entered as a certified product at Level A, B or C." Therefore any leather can be used as leathers are almost always under 10% by weight of a furniture item

#### LEED

VERONA can contribute low VOC points

#### WELL

- VERONA can contribute Low VOC / VOC Reduction
- Toxic Material Reduction: VERONA is free of PFCs, flame retardants, phthalates and urea formaldehyde

#### SEATING COMFORT RATING

A rating to determine a leather's seating comfort based upon the leather's ability to breathe and absorb moisture. Tested to ASTM E 96 M-05. VERONA achieves an Excellent Seating Comfort rating.
