BRAILLE tells the story of 'Listen and Record'.

"I record my own voice every day and listen to it exactly a year later. I've been doing this for eleven years. . . . Every night before bed, I take out the tape for that day of the year. I first listen to its content, which was recorded a year ago on the same day. Then I record my current voice over it. . . . The contents of my recordings vary, just like what people write in journals vary. . . . This allows me to live a life parallel to my life a year ago."

Story by Juro Osawa.

## ENVIRONMENT

- 69% rapidly renewable content (cotton).
- Environmentally Improved Production Process: reduced energy consumption, reuse and recycling of waste and use of environmentally optimised dyes.
- IAQ: Cotton absorbs prevalent indoor air contaminants therefore benefiting indoor air quality.
- Reusable and 69% biodegradable (natural fibre content).
- The manufacturer has an environmental policy.

## GREEN STAR + LEED

- BRAILLE can be used on white furniture certified to Ecospecifier, AFRDI, GECA and ECNZ.
- The Green Star Rating Tool states "Where at least 90% of an item's total mass is certified to a GBCA recognised standard, the item can be entered as a certified product at Level A, B or C." Therefore any fabric can be used as fabrics are almost always under 10% by weight of a furniture item.
- 69% rapidly renewable content contributes to LEED MR Credit 6 Rapidly Renewable Materials.
