- **Abrasion Resistance:** Resilience provides additional wear properties and surface durability, thereby increasing the life of the material. HATCH is able to withstand wear and tear in high demanding situations
- **Easy to Clean + Bleach Cleanable:** Easily cleaned with mild soap and water. Can be easily disinfected using one part bleach and ten parts water
- **Superior Lightfastness:** Achieves 500 hours light fastness

ENVIRONMENT

- Free of phthalates, flame retardant + anti-bacterial additives (ADF); lead, BPA, TRIS + formaldehyde
- Does not contain conflict minerals
- Reduced energy and water use, recycling of waste + solution-dyed product
- Meets the environmental, health and safety standards set by California Prop 65, CPSIA + REACH

GREEN STAR

- HATCH can be used on white furniture certified to Ecospecifier, AFRDI, ECNZ and GECA
- The Green Star Rating Tool states “Where at least 90% of an item’s mass is certified to a GBCA recognised standard, the item can be entered as a certified product at Level A, B or C.” Therefore any fabric can be used as fabrics are almost always under 10% by weight of a furniture item

WELL

- HATCH can contribute to WELL Toxic Material Reduction criterion as it is free of PFCs, flame retardants, phthalates and urea formaldehyde
