Spread of Flame 0
Heat Evolved 4
Smoke Developed 5

AS/NZS 3837 BCA Group 2
Av. Specific Extinction Area 377.3m²/kg

APPLICATION upholstery, screens, wall panels

ENVIRONMENT

- 36% low embodied-energy material: polypropylene has a lower embodied-energy compared to polyester and nylon.
- Environmentally Improved Production Process: reduced energy consumption, reuse and recycling of waste.

GREEN STAR

- MINGLE can be used on white furniture certified to Ecospecifier, AFRDI, ECNZ and GECA.
- The Green Star Rating Tool states "Where at least 90% of an item's mass is certified to a GBCA recognised standard, the item can be entered as a certified product at Level A, B or C." Therefore any fabric can be used as fabrics are almost always under 10% by weight of a furniture item.
