Results from performance tests are

guidelines only

#### **CERTIFICATIONS + STANDARDS**

- Low VOC
- OEKO-TEX 100

#### **ENERGY + EMISSIONS**

Production facility uses over 80% renewable energy

#### WATER + CHEMICALS

- Australian wool meets strict chemical minimisation criteria and does not contain any LBC Red List chemicals or Substances of Very High Concern (SVHCs)
- Manufacturing facility is REACH compliant
- Wool absorbs indoor air contaminants, improving air quality
- Wool is inherently fire, stain + soil resistant, hence no finishing treatments are required
- Production facility recycles approx. 250 cubic meters of cooling water daily

#### CIRCULARITY + LIFECYCLE

- Wool + cotton content (75%) are Biological Nutrients in the circular economy and are 100% biodegradable + rapidly renewable
- Esprit can be accepted for takeback as part of our REVIVE® Product Stewardship Scheme
- 100% of waste from production facility is sent for material or energy recovery

#### LAND USE + BIODIVERSITY

 Impacts on land and biodiversity from production facility such as energy sources, emissions to air and wastewater are monitored and in line with local regulatory standards

#### **SOCIAL IMPACT**

 Production facility meets all local labour law requirements, ensuring fair wages, safe working conditions, OH&S training, ethical treatment of employees + anti-discrimination

#### **BUILDING RATING SYSTEMS**

Esprit will contribute the following points for Green Star, LEED + WELL building standards:

Criteria	Green Star	LEED	WELL
Low VOC	√	√	√
Bio-Based Materials	NA	√	NA
Product Stewardship Program	√	√	NA
Toxic Material Reduction	NA	NA	√

#### **GREEN STAR**

- Indoor Pollutants/Low VOC (12)
- Product Stewardship Program (21.1 E)
- Esprit can be used on white furniture certified to Ecospecifier, AFRDI, ECNZ and GECA
- The Green Star Rating Tool states "Where at least 90% of an item's mass is certified to a GBCA recognised standard, the item can be entered as a certified product at Level A, B or C." Therefore any textile can be used as textiles are almost always under 10% by weight of a furniture item.

#### LEED

- Low Emitting Materials / Low VOC (EQ credit)
- Extended Producer Responsibility (MR credit)
- Responsible Sourcing of Bio-Based Materials (75%, MR credit)

#### WELL

- Air Quality/VOC Restrictions (A01 + X06)
- Materials Optimisation (X08)
